

# **Christmas dinner with my family.**

## **Christmas dinner with my family.**

**In the holidays my family and I were taking a visit to our cousins and our grandparents.**

**First we got everything that we needed and put it in the car. We got in the car and we drove to our cousin's house. When we arrived ,we saw Christmas lights hanging around their house. We went in and we saw our grandpa and grandma. We went to say hi to them and they were happy to see us. Then the older cousin of mine gave us some candy.**

**Then we went outside and played with our cousins on the swing and trampoline that they had outside. Later that day when we were still playing my mum told all of us to come inside for dinner and when we did, we saw that the food and drinks were ready and then we did our prayer.**

**Next me and my sisters and brothers sat in the living room because there were no chairs left in the kitchen. I ate the pork and the gravy first, so did my little sister and when we were finished eating we cleaned up the kitchen and went out for dessert. We got a chocolate cake and some cupcakes and went back to their house and ate there. When we were done eating they gave us our Christmas presents and our cousins too. Then a few hours later my mom said It was getting late ,so we said a big goodbye and drove back home.**

**Finally when we arrived back home I went to open my gifts and so did my siblings . After we played with them I was too happy to go to sleep.**
